

# PROJECT SNAP

Lincoln Elementary School | Grand Island, Nebraska

## Ventilation Solution

Nova A16

## Project Requirements

- > Low Profile Solution
- > Improve Occupant IAQ
- > High-Efficiency Solution
- > Custom Side Access Doors
- > VRV Integration

## Project Type

Retrofit

## Engineer

Engineering Technologies, Inc.

## Manufacturer's Rep

Mechanical Sales

## Solution

To ventilate a small second floor Media Center addition and remodeled Administration area of the school, a Nova A16 ERV with custom side access doors, integrates with a Daikin VRV system to provide fresh outside air to both areas.
