

# PROJECT SNAP

Vantage One | Vernon, BC

## Ventilation Solution

Nova B20 with Hydronic Coil

## Project Requirements

- > Low Profile Solution
- > Improve Occupant IAQ
- > High-Efficiency Solution

## Project Type

Retrofit

## Engineer

Falcon Engineering

## Manufacturer's Rep

Olympic International

## Mechanical Contractor

Combined Mechanical Contractors

## Challenge

The ventilation solution for this office retrofit was required to fit through a standard door and meet a very tight delivery schedule. With local manufacturing and a 20" depth, Oxygen8's Nova B20 ERV was the right fit.
